

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-30. (Cancelled)

31. (New) A personal care product comprising a nonwoven web, wherein said nonwoven web comprises a multicomponent fiber, said multicomponent fiber formed from coextrusion of at least two components, said components including a first component comprising a fiber-forming polymer and a second component comprising an active agent and a positive displacement carrier, wherein said positive displacement carrier comprises one or more polymers and is capable of gradually dispensing said active agent from said multicomponent fiber to a user's skin.

32. (New) The personal care product of claim 31, wherein said personal care product is selected from the group consisting of diapers, training pants, refastenable pants, absorbent underpants, feminine hygiene products, and adult incontinence products.

33. (New) The personal care product of claim 31, wherein said multicomponent fiber has a sheath/core configuration.

34. (New) The personal care product of claim 33, wherein said multicomponent fiber includes a core comprising said first component and a sheath comprising said second component.

35. (New) The personal care product of claim 33, wherein said multicomponent fiber includes a core comprising said first component, a first sheath comprising said

second component, and a second sheath comprising a third component, said third component comprising an active agent and a positive displacement carrier.

36. (New) The personal care product of claim 35, wherein said second and third components comprise positive displacement carriers having different active agent dispensing rates.

37. (New) The personal care product of claim 31, wherein said multicomponent fiber has a side-by-side configuration.

38. (New) The personal care product of claim 31, wherein said multicomponent fiber has an islands-in-the-sea configuration.

39. (New) The personal care product of claim 31, wherein said multicomponent fiber is wet spun.

40. (New) The personal care product of claim 31, wherein said multicomponent fiber is dry spun.

41. (New) The personal care product of claim 31, wherein said nonwoven web is a meltblown web, a spunbonded web, or a bonded carded web.

42. (New) The personal care product of claim 31, wherein said active agent is selected from the group consisting of skin care agents, therapeutic agents, and cleansing agents.

43. (New) The personal care product of claim 31, wherein said active agent is a lotion, a cream, or a wax.

44. (New) The personal care product of claim 31, wherein said active agent comprises less than about 5% by weight of said second component.

45. (New) The personal care product of claim 31, wherein said positive displacement carrier comprises an aqueous based polymer system or a non-aqueous based polymer system.

46. (New) The personal care product of claim 45, wherein said positive displacement carrier comprises an aqueous based polymer system selected from the group consisting of polyvinyl alcohol, sodium alginate, hydroxypropyl methylcellulose, chitosan, polyethylene glycol, tetramethylene ether glycol, polyvinyl pyrrolidone, and hydroxymethyl cellulose.

47. (New) The personal care product of claim 45, wherein said positive displacement carrier comprises a non-aqueous based polymer system selected from the group consisting of polyurethane, ethylene vinyl acetate, acrylic based polymers, chitin, ethylcellulose, and polyacrylonitrile.

48. (New) The personal care product of claim 31, wherein said first component comprises a fiber-forming polymer selected from the group consisting of polyolefins, polyesters, nylons, and combinations thereof.
